Experience

Multimedia & Design Projects | Indian Tech (2024-2025)

- Created graphics, presentations, multimedia campaigns, and AI-assisted websites individually and in teams.
- Applied Canva, Figma, and Adobe Express to deliver visually engaging content.
- Coordinated with teammates to ensure timely completion and consistent quality.

Photography Projects | University Photography Class | (2025-2026)

- Captured, edited, and curated photos for individual and collaborative projects.
- Contributed to concept development, shooting, and post-processing to produce visually compelling content.

Public Communication | University Public Speaking Class | (2024-2025)

- Guided classmates to speak confidently in public and delivered presentations to foster engagement.
- Developed strong communication, leadership, and confidence-building skills.

Projects

AI-Assisted Personal Website | 2026

- Built a personal website using AI tools and apps for design and layout.
- Created visually engaging content, graphics, and multimedia assets to showcase portfolio projects.
- Designed a responsive layout for desktop and mobile users.

Photography Portfolio Website | 2026

- Developed a web gallery to display photography projects from university coursework.
- Implemented user-friendly navigation and responsive design.
- Combined multimedia content with visual storytelling principles for engaging presentation.

Interactive Multimedia Campaign | 2025

- Collaborated on a team project to create a digital marketing campaign with graphics, videos, and web components.
- Applied Canva, Adobe Creative Suite, and AI-assisted tools to produce high-quality content.
- Ensured timely delivery and consistent visual standards across all media.

Digital Advertising Campaign – Apple Earpods | February 2025, India

- Planned and executed a local Google Ads campaign, managing the budget and targeting strategy.
- Analyzed campaign results: the majority of engagement came from female users and iPhone owners, who showed the highest purchase interest.
- Gained practical experience in digital marketing, ad targeting, and performance analysis.

School Admissions Campaign | India, 2024

- Designed and distributed flyers to promote private school admissions in local cities.
- Created visually appealing content to attract parents and encourage enrollment for their children.
- Coordinated placement and timing of the campaign to maximize visibility and engagement.
- Gained experience in graphic design, marketing strategy, and local campaign execution.
